

Export attendees

07/26/2023 9:51 am PDT

Group admins can export event attendees of any event into a CSV file. The CSV file can be opened in Google Sheets, Microsoft Excel, or any other spreadsheet software.

The export includes export fields as well as any [sign-up question](#) they responded to.

To export a list of attendees, admins can select “export” from the edit menu option in the top right of any group event.
